This resolution authorized Grayson County to apply for Agribusiness Grant funding through the Tobacco Region Revitalization Commission (TRRC). IN RE: JOINT PROCLAMATION OF GRAYSON COUNTY, CARROLL COUNTY, CITY OF GALAX
AND THE TOWN OF HILLSVILLE IN RECOGNITION AND SUPPORT OF BUILDING
SAFETY MONTH – MAY 2017

Mitchell L. Smith read the Proclamation (listed below). Supervisor Fant made the motion to approve; duly seconded by Supervisor Hash. Motion carried 5-0.

***JOINT PROCLAMATION OF
GRAYSON COUNTY, CARROLL COUNTY, CITY OF GALAX,
AND THE TOWN OF HILLSVILLE
IN RECOGNITION AND SUPPORT OF BUILDING SAFETY MONTH***

May, 2017

Whereas, the Boards of Supervisors of Grayson and Carroll Counties the Council of the City of

Galax and the Council of the Town of Hillsville are committed to recognizing our growth and strength depends on the safety and economic value of the homes, buildings and infrastructure that serve our citizens, both in everyday life and in times of natural disaster, and;

Whereas, our confidence in the structural integrity of these buildings that make up our community is achieved through the devotion of vigilant guardians—building safety and fire prevention officials, architects, engineers, builders, tradespeople, design professionals, laborers and others in the construction industry—who work year-round to ensure the safe construction of buildings, and;

Whereas, these guardians are dedicated members of the International Code Council, a U.S. based organization, that brings together local, state and federal officials that are experts in the built environment to create and implement the highest-quality codes to protect us in the buildings where we live, learn, work, worship, play, and;

Whereas, our nation benefits economically and technologically from using the International Codes® that are developed by a national, voluntary consensus codes and standards developing organization, our government is able to avoid the high cost and complexity of developing and maintaining these codes, which are the most widely adopted building safety and fire prevention codes in the nation; these modern building codes include safeguards to protect the public from natural disasters such as hurricanes, snowstorms, tornadoes, wildland fires, floods and earthquake; and;

Whereas, Building Safety Month is sponsored by the International Code Council to remind the public about the critical role of our communities' largely unknown guardians of public safety—our local code officials—who assure us of safe, efficient and livable buildings that are essential to keep America great, and;

Whereas, “Code Officials—Partners in Community Safety and Economic Growth” the theme for Building Safety Month 2017, encourages all Americans to raise awareness of the importance of building safe and resilient construction; fire prevention; disaster mitigation, and new technologies in the construction industry. Building Safety Month 2017 encourages appropriate steps everyone can take to ensure that the places where we live, learn, work, worship and play are safe, and recognizes that countless lives have been saved due to the implementation of safety codes by local and state agencies, and,

Whereas, each year, in observance of Building Safety Month, Americans are asked to consider the commitment to improve building safety and economic investment at home and in the community, and to acknowledge the essential service provided to all of us by local and state building departments, fire prevention bureaus and federal agencies in protecting lives and property.

NOW, THEREFORE, BE IT PROCLAIMED, that the Grayson County Board of Supervisors, the Carroll County Board of Supervisors, the Council of the City of Galax, and the Council of the Town of Hillsville, Virginia, do hereby proclaim the month of May 2017 as Building Safety Month. Accordingly, we encourage our citizens to join with their communities in participation in Building Safety Month activities.

Supervisor Fant made the motion to open the public hearing; duly seconded by Supervisor Hash. Motion carried 5-0. R. Kelly Haga, Grayson County Treasurer, addressed the Board (memo listed below) and noted that he had received positive comments from the public in doing away with the decals and replacing it with a vehicle fee. To: Grayson County Board of Supervisors

From: R. Kelly Haga, Grayson County Treasurer

This memo is in response to the rejection of my past request to end decal sales in the county and move to a decal fee as allowed by the state of Virginia. You rejected my request on the recommendation of former county administrator Jonathan Sweet and asked for a revised recommendation to consider. This recommendation was delayed due to the recent changes in the type of "listing" in the commissioner of revenue's office is allowed to use. With the listing coming straight from the DMV download rather than sending listing paper to citizens this will save a great deal of time.

My proposal is to continue the decal sales in 2017. However I request that in 2018 we discontinue the decal program and switch to a vehicle fee as I outlined earlier. I also request that you consider a change in the billing for personal property taxes in the calendar year 2018. I recommend that tax due date for 2018 Personal Property be June 5, 2018, with a billing date no later than two weeks prior to due date as required by state law. We will however, try to remain on a bill date schedule of 30 days prior to the due date. If that

change were made it would benefit the citizens of Grayson County two ways. It will simplify the tax structure by eliminating the decal process and will also spread the tax burden out over the year and not require as much at one time. I commonly here the distress that billing before the Christmas holiday causes. The county would benefit by having revenue distributed more evenly throughout the year.

Below is the same information I provided on the decal program:

As most of you know our decals are due to be installed on all cars, trucks, and motorcycles on the 5th of April each year. The sale of these decals begins on March 1st and continues through February of the next year for citizens that buy new cars within the year.

In 2016 our county had a total of 16,775 registered cars and trucks, and 580 motorcycles that required the purchase of decals. The total revenue of these sales should equal \$419,375 and \$8700 respectively for a total of \$428,075.

The actual sales of decals equaled 10,212 for cars and trucks, and 259 for motorcycles. The actual total amount of revenue generated was \$259,785. This leaves \$168,290 on the table uncollected without any meaningful way to “encourage” people to purchase a decal for all licensed vehicles.

Grayson County is one of the last localities, in the state to use the decal. All surrounding counties and now the City of Galax have done away with their decal programs and moved to a “vehicle fee” structure. This presents a situation where many Grayson citizens do not feel they need to buy a decal because they feel its presence isn’t being enforced. Local law enforcement officials have historically had reciprocal agreements with adjoining counties to enforce the presence of the decal on the car windshield. This enforcement becomes increasingly less likely because other area law enforcement officials are not looking for the decal at all.

To explain the “vehicle fee” used by most other localities, they simply charge a fee of \$25.00 for cars and trucks, and \$15.00 for motorcycles. This is collected as a separate line item with the VIN number and listed on the personal property tax bill. This eliminates the need to purchase a decal and put it on the windshield. It also reduces the need for the county to buy the physical decals, and eliminates the bigger cost which is the printing and mailing of the decal order forms.

The Treasurer's office now has access to the Virginia DMV computer system and is able to perform "DMV stops." Virginia State code 46.2-752 allows localities to prevent anyone who has unpaid taxes or license fees from renewing their tags for the year. The tags cannot be released until all said taxes or fees are paid in full including any fees associated with this process. This gives the county much stronger enforcement ability, namely because a "decal" is not subject to enforcement under state code 46.2-752.

Therefore, it is my recommendation that we discontinue the requirement of purchasing a county decal beginning in tax year 2018. I would suggest instating a "vehicle fee" for each licensed vehicle garaged in Grayson County. This would present an opportunity for the county to increase revenue up to the \$168,000 that is uncollected currently.

Respectfully,

R. Kelly Haga
Grayson County Treasurer
